

Vinyl outer layer and  
appliance-grade  
fiberglass insulation

Includes adhesive  
tape and  
instructions

## N1104S / N1102S / N1105S/ N1103S Water Heater Insulation Blanket

Niagara's Water Heater Insulation Blanket helps prevent heat from escaping your water heater, thereby lowering the amount of energy it consumes. A tank that is warm to the touch needs additional insulation. This insulation blanket includes adhesive tape, easy to follow instructions, and is compatible with gas, oil, and electric water heaters. This R-11 insulation blanket can reduce energy loss by 25-45%, resulting in substantial monetary savings.

- Additional water heater insulation can reduce standby heat loss by 25%-45% saving 4%-9% in water heating costs
- Blanket has white vinyl outer layer and is made from appliance-grade fiberglass insulation
- Includes adhesive tape and instructions
- For use with gas, oil, or electric water heaters
- Special-order available in varying thickness, lengths and R-values
- No formaldehyde
- Compressed packaging to save space

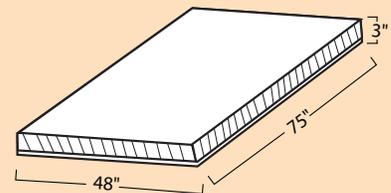

**Certifications:** Meets and exceeds U.S. DOE standards
