Description

0.3 Sones 50-CFM White Bathroom Fan with Light ENERGY STAR

- Quiet operation and powerful performance are achieved through our aerodynamic fan design technology
- With a housing depth of 5-5/8-in, these super-slim fans minimize space requirements, installation time and fit in 2x6 or larger construction
- One 32-watt compact fluorescent lamp will provide plenty of overhead lighting while the convenient, 4-watt nightlight will help you find your way through the room in the dark
- Detachable 3-in or 4-in adapters, firmly secured duct ends, adjustable mounting brackets (up to 26-in), fan/motor units that detach easily from the housing and uncomplicated wiring all lend themselves to user-friendly installation
- This Panasonic fan has a built-in damper to prevent backdraft, which helps to prevent outside air from coming through the fan
