

# DEFENDER

Carbon Monoxide Alarms

## CA6150 Carbon Monoxide Alarm

The Defender CA6150 Sealed Lithium Battery Powered carbon monoxide alarm enables the client to monitor the current and peak CO levels as low as 10 PPM.

The non-removable lithium batteries never have to be replaced, cannot be pilfered for use in another device, and are warranted to power the detector for ten years.

Secure mounting system protects detector installation.

### Monitor Low CO Levels

Display the current and peak CO levels detected as low as 10 PPM, and the duration of the peak level, with One-Touch of a button.

### SPECIFICATIONS:

- Sealed Lithium Battery Powered CO Alarm
- Two Non-Removable, Soldered Lithium Batteries
- Automatic and Manual Battery Activation
- Accurate and Reliable Electrochemical Sensor
- Integrated Filter for Removing Nuisance Gases
- Samples for Carbon Monoxide Every 10 Seconds
- Large Alpha-Numeric LCD Readout with Memory
- One-Touch Displays Current CO Level from 10 PPM
- Auto. Displays Current CO Level from 30-999 PPM
- Memory Displays Peak CO Level from 10-999 PPM
- Memory Displays Duration of Peak from 0-999 Mins.
- Separate Display and Test Buttons
- Separate Alarm, Power and Service LED's
- Phillips Screw Secures Detector to Mounting Plate
- UL Tested/Listed to latest ANSI/UL 2034 Standard
- Ten Year Factory Warranty for Alarm and Batteries

*Displays "On" Under Normal Conditions*

*First: One-Touch Displays Current CO Level,*

*Second: Reads Peak CO Level Detected, and*

*Third: Reads Duration of Peak CO Level*

## CA6100 Carbon Monoxide Alarm

- Sealed Lithium Battery Powered CO Alarm
- Two Non-Removable Lithium Batteries with Soldered Connections
- Automatic and Manual Battery Activation
- Accurate and Reliable Electrochemical Sensor
- Integrated Filter for Removing Nuisance Gases
- Samples for Carbon Monoxide Every 10 Seconds
- Bold Easy-to-Read Operation Indicators
- Separate Alarm, Power and Service LED's
- Phillips Screw Secures Detector to Mounting Plate
- Underwriters Labs Tested/Listed to latest ANSI/UL 2034 Standard
- Ten Year Factory Warranty for Alarm and Batteries
