

Attractive dimmable LED, alternative to popular incandescents.

Philips A-shape Dimmable and 3-way LED Lamps are the smart LED alternative to standard incandescent A-shape lamps. The unique lamp design provides omni-directional light with excellent dimming performance.

Ideal for decorative and ambient lighting in retail outlets, hotels, restaurants, government buildings, and multi-unit residences.

Philips A Shape LED Dimmable and 3-way Lamps

Long lasting, energy efficient light

- New 6.5W design is ENERGY STAR® Qualified, and replaces a 40W incandescent equivalent A19 bulb¹
- 9.5W A19 lamp replaces a 60W standard incandescent equivalent A19 bulb²
- 14W A21 lamp replaces a 75W standard incandescent equivalent A21 bulb³
- 18W A21 lamp replaces a 100W standard incandescent equivalent A21 bulb⁴
- 3-Way lamp delivers light equivalent to either a 40W, 60W or 100W incandescent bulb when used with a standard 3-way socket or luminaire⁵
- Smooth dimming to 10% of full light levels⁶
- 25,000 hour rated average life⁷
- Some models can be used in enclosed fixtures⁸
- Emits virtually no UV/IR light in the beam
- Contains no mercury

Easy to experience

- Long life lowers maintenance costs by reducing re-lamp frequency
- Will not fade colors, avoids inventory spoilage
- 3-year limited warranty depending upon operating hours⁹
- Certain lamps dim from 2700K to 2200K creating a warm glow

* See page 3 for footnotes.

Energy Saving Solution

Estimated Lighting Costs Using a standard 100W Incandescent A21 Lamp

Present Wattage	100	W
× Annual operating hours	4,000	hrs
=	400,000	Watt-Hours
÷ 1,000	=	400 kWh per year
× kWh rate of \$0.11	=	\$44.00 per year
× 100 lamps	\$4,400.00	annual energy cost per space

Estimated Lighting Costs Using a Philips 18W LED A21 Lamp

Present Wattage	18	W
× Annual operating hours	4,000	hrs
=	72,000	Watt-Hours
÷ 1,000	=	72 kWh per year
× kWh rate of \$0.11	=	\$7.92 per year
× 100 lamps	\$792.00	annual energy cost per space

Total estimated annual savings⁶ \$3,608.00

⁷ Based on 100 lamps per space operating at 4,000 hours per year

This energy saving example shows an application of 100 lamps in a space currently using 100 incandescent 100W, 1600 lumen A21 lamps, operating 4,000 hours per year at a cost of \$0.11 per kWh. Your actual savings may vary depending on the energy costs in your geographic location.

Replacing 100 standard incandescent 100W 1600 lumen A-lamps with Philips 18W Philips LED A21 lamps can provide significant energy cost savings of \$3,608.00 per year! Potential savings from the reduction in HVAC costs as a result of using a lower wattage lamp that emits less heat is an additional benefit not included in this example.

- When comparing this 6.5W LED A19 having 450 lumens to the standard 40W incandescent A19 having 400 lumens.
- When comparing this 9.5W LED A19 having 800 lumens to the standard 60W incandescent A19 having 800 lumens.
- When comparing this 14W LED A21 having 1100 lumens to the standard 75W incandescent A21 having 1100 lumens.
- When comparing this 18W Philips LED A21 having 1600 to the standard 100W incandescent A21 having 1600 lumens.
- When comparing this 3-Way Philips LED lamp to a standard 3-way incandescent lamp that produces 400 lumens (at 40W), 800 lumens (at 60W), and 1600 lumens (at 100W)
- Dimmable (see Philips Website: <http://www.philips.com/ledtechguide> for compatible dimmers).
- LED lifetime means the length of time (in hours) until half of the LED light sources maintain at least 70% of their initial lumen output (B50, L70).
- See Technical Application Guide for complete details. Only 60W Energy Star equivalent lamps are rated for enclosed fixtures. All lamps include an over temperature protection (OTP) feature that systematically reduces the lamp power and consequently its internal temperature should it be subjected to abnormally high ambient temperature conditions.
- See limited warranty for details/restrictions.
- Based on photometric testing consistent with IES LM-79.
- This lamp is ENERGY STAR® Certified.
- ENERGY STAR® Test in progress.
- Light dims to a warm glow, similar to incandescent

Philips A Shape LED Dimmable and 3-way Lamps

NOTES: This device complies with Part 15 of the FCC rule. Operation is subject to the following two conditions:
(1) device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation. This Class B digital apparatus complies with Canadian ICES-003.
