Designed to provide continual value for your home

Provide light and ventilation with a traditional colonial style casement. Combine together or with picture windows to create different and unique architectural styles.

MULTI

FULL FUSION WELDED FRAME CORNERS

MULTI POINT LOCKING SYSTEMS

- Secures the sash sequentially from bottom to top

MULTI POINT LOCK ACTUATOR

- Engages or disengages the multi-point locking system with one single lever design

WELDED SASH CORNERS

- Provide stability for the sash & frame structure

7/8" DUAL GLAZED

- Insulating glass with Low-E, Argon gas and Super Spacer® for the best R-Value in its class

SNUBBERS (Hidden)

- Keeps sash tight to frame along hinge side of window

OPTIONAL STAINLESS STEEL EGRESS HINGES

- To meet today's stringent building codes.
- Smooth performance, even under heavy loads

EXTERIOR VIEW

INTERIOR VIEW

TRIPLE WEATHERSTRIPPING

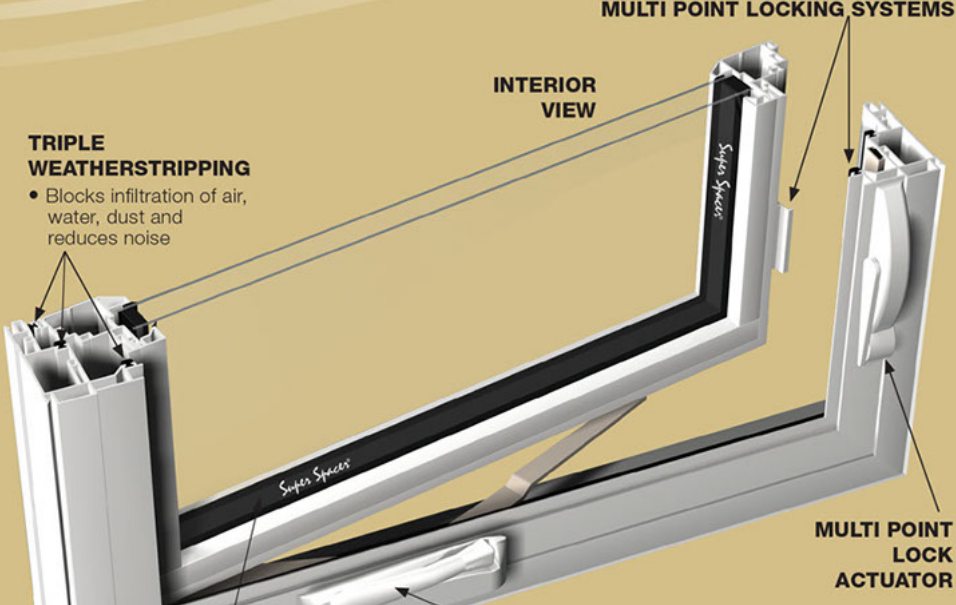

- Blocks infiltration of air, water, dust and reduces noise

with draperies
degrees for easy
of the house

The space age acrylic adhesive that bonds the spacer to the glass and mylar tape that keeps Argon Gas from escaping from the insulated unit makes Super Spacer® a far superior system to all insulating glass systems on the market today. This warm edge technology reduces condensation problems seen in other window systems.
